ATTORNEYS AT LAW

## **Public Procurement, PPP and PFI**

We advise across a wide range of subject areas in the public sector and infrastructure projects involving Public Procurement, PPP and PFI schemes.

Our practice covers the following industries:

- Highways and road infrastructure.
- Water and sewage.
- Heat.
- Hospitals.
- Waste treatment.
- Public transportation.
- European cross-border projects.

We provide a blend of expert knowledge and practical advice designed to achieve our clients' objectives in a cost-effective, bankable and pragmatic manner.

Our breadth of experience has enabled us to establish a comprehensive approach to project work, with an accurate perception of the risks, which are significant to each party of a project. We advise from the initial structuring and tendering stage, including legislative and regulatory issues, through to the financing and final contractual negotiations.

Our services for public authorities include:

- review of legal framework and draft amendments.
- preparing tender books and offers.
- drafting Terms of Reference and standard terms and contracts.
- assisting the authorities for the analysis of the bidder's offers.
- drafting works, services and concession contracts.
- contracts due diligence.
